A DETROIT MIRACLE.

GREAT TRIUMPH FOR MEDICAL SCIENCE.

Particulars of One of the Most Remark able Cures on Record Described by the Detroit News-A Story Worth a Careful

DETROIT, Mich., Jan. 18.—A case has just come to light here, the particulars of which are published in the Evening News, which will be read with considerable in-terest, as it records the remarkable achievement of a medical discovery, which has already won great and enduring fame. The story is told by the News as

follows: The following paragraph, which appear The following paracraph, which appeared in the News a short time ago, furnished the basis of this information—a case that was so wonderfully remark-ble that it demanded further explanation. It is of sufficient importance to the News' readers to report it to them fully. It was so important then that it attracted considerable attention at the time. The following is the paragraph in question:

"C. B. Northrop, for 28 years one of the best known merchants on Woodward avenue, who was supposed to be dying last spring of locamotor ataxis, or greeping

spring of locomotor ataxis, or creeping peralysis, has secured a new lease of life and returned to work at his store. The disease has always been supposed to be incurable, but Mr. Northrop's condition has greatly improved, and it looks now as if the grave would be cheated of its prey."
Since that time bir. Northrop has steadily improved not only in looks, but in con-

dition, till he has regained his old time strength.
It had been hinted to the writer of this article, who was acquainted with Mr. Northrop, that this miraculous change had been wrought by a very simple remedy called Dr. Williama' Pink Pills for Pale People. When asked about it Mr. Northrop fully verified the statement, and not not be but he had taken paints to infrom only so, but he had taken pains to inform only so, but he had taken pains to inform anyone who was-sufferingin a similar man her when he heard of any such case. Mr. Northrop was enthusiastic at the result in his own case of Dr. Williams' Pink Pills. It was a remedy that he had heard of after he had tried everything he could hope to give him relief. He had been in the care of the best physicians who did all they could to alleviate this terrible malady, but without any avail. He had given up hope when a friend in Lockport, N. Y., wrote him of the case of a person there who had been cured in similar circumstances by Dr. Williams' Pink Pitts for Pale People. The person cured at Lockport had obstained by the cure of the person cured at Lockport had obstained by the content of the cure tained his information respecting Dr. Willisms' Pink Pills from an article published in the Hamilton, Out., Times, CThe case was called "The Hamilton Miracle." and told the story of a man in that city who, after almost incredible suffering was pronounced by the most spread which pronounced by the most eminent physi-cians to be incurable and permanently disabled. He had spent hundreds of dollars in all sorts of treatment and appliances only to be told in the end that there was no hope for him, and that cure was impossible. The person alluded to (Mr. Jonn Marshall, of 25 Little Williams St., Hamilton, Ont.,) was a member of the Royal Templars of Temperance, and after having been pronounsed permanently disabled and incurable by the physicians, was paid the SI Offineurs of the Mr.

was paid the\$1,000 insurance disability provided by the order for its members in such cases. For years Mr. Marshall had been utterly helpless, and he was barely able to drag himself around the house with the aid of crutches. His agonies were almost unbearable and life was a burden to him, when at last relief came. Some months after he had been paid the disability claim he heard of Dr. Williams' Pink Pills and was induced to try them. The result was miraculous; almost from the outset an improvement was noticed, dnd in a fee months the mon whom medical experts had said was incurable, was going about the city healtbier and stronger than before. Mr. Marshal was so well known in Hamilton to at all the city newspapers wrote up his wonderful recovery in detail and it was thus as he fore stated, but Mr. Marshal thus as before stated, that Mr. Northrop came into the possession of the informa-tion that led to his equally marvelous recovery. One could scarcely conceive a case more hopeless than that of Mr. Northrop. His jojury came about in this

ley evening for one week, on account of the measies.

The next meeting of the Washington Cownehip Teachers' Institute will be held in Sub-District No. 6 on Friday evening, land other cities, which fought to capture the prize, which will operate against their getting from the legislature against their getting from the legislature against their getting from the legislature. miysts very soon developed itself, and t spite of the most strengous efforts of friends and physicians the terrible affliction fastened itself upon him. For nearly two years he was perfectly helpleass. He could do nothing to support his strength, in the least affort. He had to be wheeled about in an invalid's chair. He wa pale and fast sinking when this timely information came that veritably snatened his life from the jaws of death. Those who at that time saw a feeble old man wheeled into his store on an invalid's

chair, would not recognize the man new, so great is the change that Dr. William's Pink Pills have wrought, When Mr. Northrop learned of the remedy that had cured Mr. Marshall in Hamilton and the person in Lockport, he procured a supply of Dr. Williams' Pink Pills through Mersers. Bassett & L'Hommediev, 95 Woodward avenue, and from the outset found an improvement. He faithfully adhered to the use of the remedy, until now he is completely restored. Mr. Northrop declares that there can be no doubt as to the Pink Pills being the cause of his restoration to health, as all other

remedies and medical treatment left him in a condition rapidly going from bad to worse, until at last it was declared there was no further hope for him and he was pronounced incurable. He was in this terrible condition when he began to use Dr. Williams' Pink Pille, and they have restored him to health.

Mr. Nor-brop was asked what was claimed for this wonderful remedy, and replied that he understood the proprietors claim it to be a blood builder and nerve restorer, supplying in condensed form all remedies and medical treatment left him restorer, supplying in condensed form all the elements necessary to enrich the blood restore the shattered nerves and drive

out disease. It is claimed by the proprie

tors that Pink Pills will cure paralysis, rheumatism, sciatica, palpitation of the heart, headache and all diseases peculiar to females, loss of appetite, dizziness, sieeplessees, loss of memory and all dis eases arising from overwork, mental worry, loss of vital force, etc.
"I want to say," said Mr. Northrop, "that I don't have much faith in patent medicines, but cannot say too much in praise of Dr. Williams' Pink Pills. The proprietors, however, claim that they are not a patent medicine in the sense in which that term is used, but a highly scientific preparation, the result of years of careful study and experiment on the part of the propietors, and the pills were successfully used in private practice for wears before the used in private practice for years before being placed for general sale. Mr. Nor-throp declares that he is a living example throp declares that he is a living example that there is nothing to equal these pills as a cure for nerve diseases. On inquiry the writer found that these pills were manufactured by Dr. Williams' Medicine Co., Schenectady, N. Y., and Brockville, Ont., and the pills are soid in boxes (never in bulk by the hundred) at 50 cents a box, and may be had of all druggists or direct by mail from Dr. Williams' Medicine Co., from either above addresses. The price at which these pills are sold makes a course of treatment with them comparatively inexpensive as compared with other tively inexpensive as compared with other remedies or medical treatment. This case is one of the most remarkable on record, and as it is one right here in Detroit, and and as it is one right here in Detroit, and not a thousand miles away, it can be easily ver fled. Mr. Northrop is very well known to the people in Detroit, and he says he is only too glad to testify of the marvelous good wrought in his case. He says he considers it his duty to help all who are similarly afflicted, by any word he can eay in behalf of the wonderful efficacy of Dr. Williams! Pink Pills. If any of the News readers want any further information, we feel sure Mr. Northrop would willingly oblige them, as he has the writer in relating these facts to him.

DELINQUENT TAXES.

A Big Sale in Which a Number of Local Gentlemen Take an Active Part.

The sale of delinquent taxes was concluded in the treasurer's office about 3 o'clock Tuesday afternoon. The sale was thernost successful one that has ever been held since the first one in the county. The list of properties for sale was very large and nearly the entire lot was taken. There was a lively scramble for some of the properties and the larger the amounts of taxes due, the greater was the desire of boyers to capture the prize. The hottest contest of the day was for the taxes of C. C. Cook on his West Tuscarawas street home. They have not been paid for a couple of years and over \$600 is due. So lively was the competition for this prize which will yield over \$100 profit, that it was necessary to draw cuts to see who should get it. James Lavin was the lucky man. This was the largest single sale of the day. A capitalist named Smith of B-rlin Center, Holmes county, secured the largest bulk of the delipquents.

These taxes form a good investment as the buyers are allowed 15 per cent penalty and 6 per cent interest if the properties are redeemed within a year. If it runs over a year they will get 6 per cent interest and 25 per cent penalty on their investment.

SIR WALTER RALEIGH'S HOUSE,

Where Tobacco Was First Smoked an Potatoes First Planted in Ireland. The house here illustrated enjoys the disfinction of having been the Irish residence of Sir Walter Raleigh. It is a fine old Elizabethan structure, built by the grea navigator in 1588, and is situated

RALEIGH'S THISH HOME,

It is impossible to tell how long the restless adventurer settled in this quiet retreat. known as "Myrtle Grove." He was mayor of Youghal for two years, and he was certainly visited by his friend Spenser in this his Irish home. "In this spot," writes Mrs. S. C. Hall of the garden at Myrtle Grove, "beyond question have been read portions of the 'Faerie Queene' long before the world became familiar with the divine conception

"At whose approach the soul of Petrarch wept. For here certainly the immortal bard held communion with his 'deare friend' and brother poet, whom he described as 'the somer nightingale,'

"Himselfe na skilful in that art as any. "In the garden there is a group of four aged yew trees, which tradition states to have been planted by Raleigh, and where it requires no stretch of fancy to believe that he has many a time sat, read and talked or loiled in the summer time, dresming of El Dorado, in the vain search of which he sac-rificed his fortune and ultimately his life." The grounds appear to be remarkable for the luxurious growth of myrtles, bays, arbutus and other exotics. Some of the myrtles, from which the place received its name, exceed twenty feet in height. Here also the first potatoes ever planted in Ireland were grown, and also the first tobacco plant imported by Raleigh. Every one knows the story of the servant maid who emptied a pail of water over her master, thinking him to be on fire. Whatever truth there may be in this tradition, it is generally asserted

that the first pipe of tobacco lit in Ireland was smoked here. The house will thus be seen to be of unique interest.

The Use of the Leving Cup-Every prosperous woman's club has its loving cup, but how many of the gues who see it gracing the banquet know origin or the graceful ceremonial whi hould be observed in drinking fromnaka The Jewelers' Circular. The lo ing cup should have two or three he dles and a cover and is handed to the pri cipal guest as the toasts bugin. The gues names, with a total of one dollar and five I to the person nearest, who also stands, and both bow. Then while the second guest removes the 1ld the first one drinks and with another how passes the cup to his neighbor, who replaces the lid and presents

it in turn to the next guest, and so the ceremony is repeated. In the old days of chivalry and of treachery, as a man while drinking from the cun was practically defenseless, his companion was required to remove the cover with his sword hand that he might not take advan-

tage of the other. Every One for Himself.

"Every one for himself, and the devil catch the hindmost." This proverb, which is widely diffused over Europe, some suppose had its origin in an ancient Spanish legend concerning the devil, who had a school of magic at Toledo. At the close of the term the graduating class were made to run through a subterranean hall, the venerable president being entitled to the hindmost if ne could catch him. It was added that as the hindmost had the benefit of a post gradunte course he turned out the best magician. but his soul was hopelessly forfeit. Cervantes, however, and in Heywood, the proverb appears, "Every man for himself, and God for us all." The earliest appear ance in English literature of the now common form seems to be, says Walsh in his handbook of literary curiosities, in Burton's "Anatomy of Melancholy," "Every man

for himself, his own ends; the devil for all." He That Was Born to Be Hanged. "He that was born to be hanged will never be drowned," is an old English proverb which has its equivalent in other languages. Thus the Danes say, "He that is hanged will never be drowned unless the water goes over the gallows." The Italians have it, "He that is to die by the gallows may dance on the river," and the Dutch say, What belongs to the raven does not

Shakespeare alludes to this proverb in

The Tempest" when he makes Gonzago say

of the boatswain: "I have great comfort

from this fellow; methinks he hath no

drowning mark upon him. His complexion

is perfect gallows. Stand fast, good fate, to his hanging! Make the rope of his destiny our cable, for our own doth little advantage. If he be not born to be hanged our case is miserable." How the Worm Gets Into the Chestnut. A scientific person explains this point as follows: When the nut is still green an insect comes along, and hunting a warm place in which to have its eggs hatched lights upon the green chestnut and stings it. At the same time it deposits some of its eggs n the opening thus made. The chestnut egins to ripen, and at the same time the

ergs are hatching. The insect selects chest-

uts as a place for depositing its eggs as be-

ug the best adapted place by instinct. The

floury matter in the nut turns to sugar, and

"Among the great men of the world blue eyes have always predominated," aftirms omebody who backs this sweeping asserion as follows: Secrates, Shakespeare, Locke, Bacon, Milton, Goethe, Franklin, Napoleon and Renan all had blue eyes. The eyes of Bismarck, Gladstone, Huxley, Virchow and Buchner are also of this color, and all the presidents of the United States, except General Harrison, enjoy the same cerulean color as to their optics.
